

## Toll Calling

Great rates, tailored to suit your calling patterns

DigitalIsland\*

Moving your business to Digital Island tolls is quick and simple, with no changes to your phone numbers, or the way you make calls. In fact, the only difference you'll notice is a lower monthly bill.

All our services are provided by New Zealand's main telecommunications companies and delivered via their network, which guarantees the highest level of quality and reliability.

Our market-adjusted rates are constantly updated to ensure they remain the most competitive in the market, so you will never be left on high historical rates again; and we do not require our customers to enter into a minimum term agreements for our toll calling services.

### TOLL CALLING FEATURES

- ▶ Consistently low, simplified pricing to all destinations worldwide means that we can normally lower a customer's bill by at least 25%.
- ▶ We offer easy to understand pricing; we do not use complicated, tiered pricing such as peak and off-peak rates, or minute by minute charging.
- ▶ Anytime calling rates mean that all our calling rates are available anytime day or night, weekday or weekend.
- ▶ We offer customised pricing plans for high volume business customers, which allow us to offer substantial savings in comparison with our competitors.

### TOLL CALLING RATES

To reduce your outbound calling costs just call Digital Island, and we will tailor a tolls package to suit your business's calling patterns and most frequently called destinations.
