

## DIGISMS USER GUIDE

---

Initially you will need to contact Digital Island to have DIGISMS set up.

### To send text message to a mobile phone by email using DIGISMS:

1. Create a new email.
2. Address the email to <smsnumber>@digisms.co.nz. (eg. 021222333@digisms.co.nz)
3. In the subject line of the Email, type in your text message ensuring it is no longer than 160 characters. Please check against this example screenshot:

4. Note that the BODY of the email must be blank (remove any E-Mail signatures you have), otherwise this will be used as the SMS message we send.
5. Send your message.
